

Setting a Whole Class Target

As well as the children having their own personal targets, each classroom has a whole class target. This target is for the children to work together to enable them to achieve as part of a team.

Our classroom target
is to keep our tables
tidy.

This is the Lion's class target. Everyone works together and tries to keep our tables tidy.

Why don't you go into your child's classroom and look at their Investors board? See what targets your child has set both individually and as a whole class.
