

Issue: Lots of whiteboard pens are running out quickly because the lids have been left off and children are rubbing out with their fingers.

School council meeting

Action - School Council decided to remind all children that it is important to look after equipment

Action - Go to each class and ask them to vote for a whiteboard pen monitor.

Report back to group

Action taken

Lots of children have been rubbing out with their fingers instead of using a rubber which makes the pens stop working. School Council have decided that each class needs a monitor to check that all pens have a lid on at the end of the day. They will also keep a look out for anyone who is rubbing out with their finger and remind them to use a rubber.
